Project Goals

- Utilize a collaborative process to ensure a variety of community members are involved and that all stakeholder groups are represented in the process.
- Develop a vision statement that is reflective of the community's needs, goals, and values
- Establish strategies that are achievable and that will help the Town realize its vision over the next decade.
- Create a plan that provides clear guidance for implementation and that is accessible to the community.
- Ensure compliance with the Growth Management Act and receive State approval.

What is important
to the
community?

What is the
collective vision?

How can we
achieve this vision?
